

UNIQUE CALACATTA™

Sign of Perfection

COMPAC
THE SURFACES COMPANY

According to Michelangelo, every block of stone he worked on had a soul, a hidden work of art that he had to uncover with his hands.

Unique Calacatta™ is the starting point. A revolution in design and technology that gives quartz a soul of its own.

Our **Naturtex™** line engenders this spirit, offering innovative designs inspired by natural stone, nature, and the eternal pursuit of perfecting perfection.

THE PURSUIT OF PERFECTION

COMPAC, in our constant pursuit of perfection, digs deep into nature, where the purity of natural stone lies sleeping in the darkness, waiting to be unveiled in all its splendour.

INSPIRATION OPENS THE WAY

In the half-light, the beauty of pure white scored by deep mineral-veins lies waiting in all its splendour to be unveiled.

Such beauty—that perfect struggle between light and dark, black and white—has inspired **COMPAC** to create our **Unique Calacatta™**.

PERFECTION OF THE SOUL

This is the soul inside our **Unique Calacatta™**.
A spirit of perfection that is unveiled to the world in each
slab, in each piece, in every square inch.

Our **Unique Calacatta™** technological quartz transmits
purity, nature, power, lightness, becoming a work of
art that transcends time.

UNIQUE
CALACATTA™

glacéfinish

—

UNIQUE
CALACATTA™

Polished
—

UNFORGETTABLE DISTINCTION

Transforming empty, silent space into something unique,
special, perfect. And no one who sees it can help feeling
that this space is alive, unforgettable.

UNIQUE
CALACATTA™

glacéfinish

With a smooth matte finish that highlights the beauty of the mineral veins.

PERFECTION THAT SPEAKS

Creating spaces that speak about you. Who you are,
what you're like. Everyone thinks and feels differently,
and that's exactly what makes us unique.

UNIQUE
CALACATTA™

Polished

—

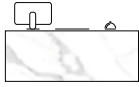

Gloss that highlights the expressiveness of colour.

APPLICATIONS

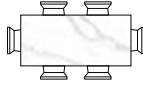

DISTINCTIVE AND VERSATILE

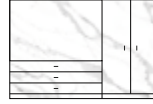

Power and subtlety, inspiring us to create designs that achieve atmospheres shaped by the stone's strong personality. Patterns are different in each piece, making each design totally unique.

PROFILES, FORMATS AND FINISHES

UNIQUE, FROM START TO FINISH

An appearance that is so naturally expressive and realistic, it enables you to create compositions with colour gradations that show elegance and natural aesthetics. Textures and finishes that give it a distinctive appeal.

EDGES

Border

Coved edge

Slab measurements: 305 x 140 cm (13 x 19.6")

2cm thickness (3/4")

glacé finish

Perfect matte, smooth and polished, a pleasing sensation to the touch, the absence of reflections and fast, easy cleaning. Beautiful and practical at the same time, with one single finish.

Polished

A finish that intensifies colours, bringing them to life, and enabling you to give a distinctive seal to your surroundings.

A finish that reflects the personality of a true connoisseur.

QUALITY

EFFICIENCY AND RESPECT, ACKNOWLEDGED THROUGHOUT THE WORLD

We are the first to demand maximum quality
and respect for the environment throughout our
entire manufacturing process.

It's part of our DNA. But the most prestigious monitoring
bodies also recognise this, which means we must
be doing things right.

U.S. Green Building Council

—

This recognition from the USGBC demonstrates our commitment to a prosperous and sustainable future - more aware of our energy use and more collaborative with the construction of "green buildings".

Certificate NSF

—

In addition to beauty and exclusive distinction, at COMPAC we also want to create responsible and safe products. This is why all our products are manufactured in materials that are totally safe for direct contact with any food product. This is certified by the leading US organisation.

Greenguard mark

—

Out of our concern for maximum safety, we create products that comply with even the most demanding quality standards for indoor air quality, and this is what this prestigious Institution guarantees by granting us these seals. Including the Greenguard Children & Schools Certified, one of the strictest standards in the industry, for obvious reasons.

BIO Certificate

—

Distinction, responsibility and respect can, and must, go hand in hand. That's why the Nature line is made using vegetable-origin raw materials such as hi-tech resin called BIO, from renewable sources. This is certified by the prestigious BIO certification.

DATA SHEET

QUALITY PROVEN BY RIGOROUS TESTING

We've told you about the emotion behind our products and all its benefits for your ideas and projects. But this would be nothing if it weren't for the technical characteristics incorporated into the products' essential quality. Because our words are backed by facts.

DATA SHEET

IMPACT RESISTANCE
UNE EN 14617-9:2005
>15 J

THERMAL EXPANSION COEFFICIENT
UNE EN 14617-11:2006
 $3,3 \times 10^{-6} \text{ }^{\circ}\text{C}^{-1}$

FLEXURAL RESISTANCE
UNE EN 14617-2:2008
80 - 90 MPa

FIRE REACTION
UNE-EN-ISO 9239-1:2002 & ISO 1716:2002
A2fl s1 Euroclasses

SLIP RESISTANCE
UNE EN 14231: 2004
6 wet / 37 dry USRV

WATER ABSORPTION
UNE EN 14617-1:2013
0,06 - 0,08 %

APPARENT DENSITY
UNE EN 14617-1:2013
2,060 - 2080 kg/m³

ABRASION RESISTANCE
UNE-EN 14617-3:2012
28 - 30 mm

CHEMICAL RESISTANCE
UNE EN 14617-10:2012
C4 (Materials maintaining at least 80% of their resistance reference value 8 hours after acid or base attack)

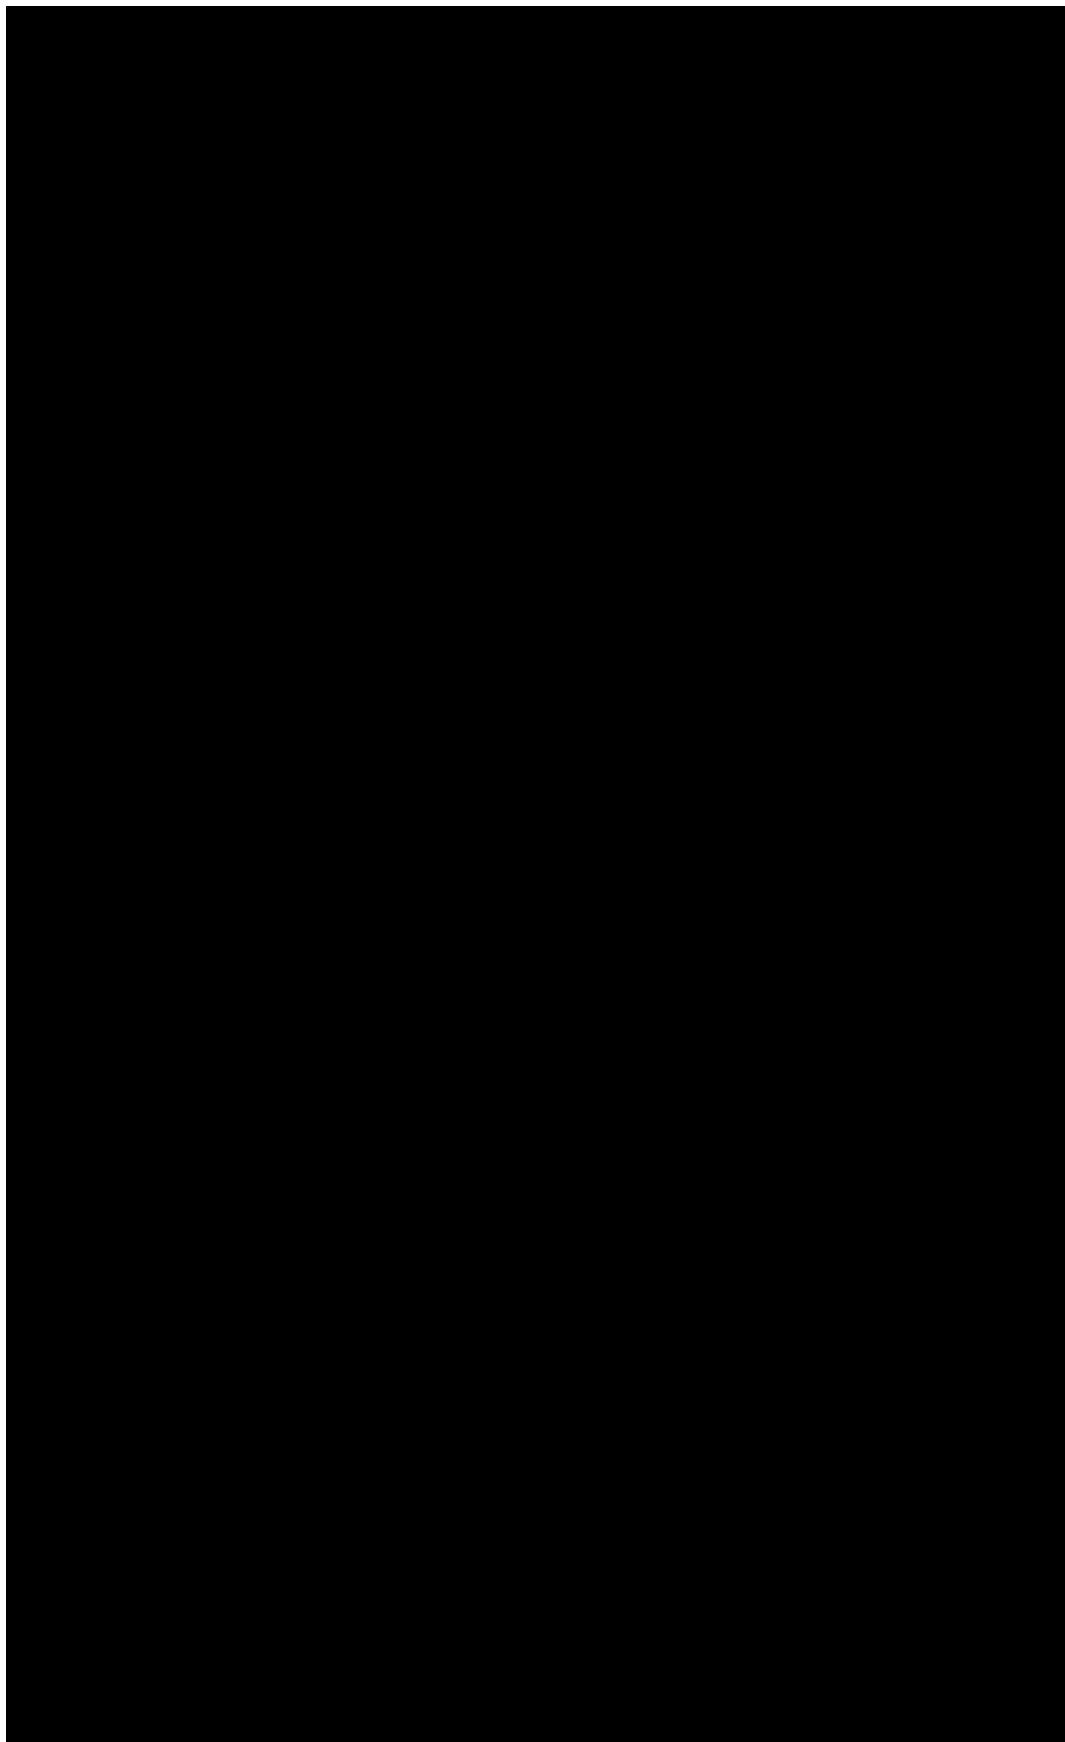

SURFACE HARDNESS
UNI EN 101 Ceramic tiles
6 - 7 MOHS

The values shown on this data sheet are typical values only, and therefore not legally binding.
