Beauty always resists

A material from another age, designed to create pieces that endure over time. Resistant, impenetrable, unbreakable, mouldable, capable of covering everything. As thin as a sheet of paper and as hard as a rock. You can build anything from these 7 millimetres. And everything built with PETRA is made to resist.

Un material de otra era, pensado para crear obras que soporten el paso del tiempo. Resistente, impenetrable, irrompible, moldeable, capaz de cubrir todo. Tan delgado como el papel y tan duro como una roca. A partir de estos 7 milímetros, todo se puede construir. Y todo lo que se construya con PETRA estará hecho para resistir.
